GLAMPING D'ESTRELLAS

Playa Rincón is paradise within paradise.

Playa Rincón is paradise within paradise.

BY ERIC HUNDLEY

Playa Rinón is considered one of the top beaches located in the Northern part of the Samaná province. This paradise oasis is easily accessible via car and even public transportation, but best of all, it's a short drive from the Glamping D' Estrellas site.

Playa Rincón has a spectacular ocean you can frolic in or body surf. The beach has beautiful white sand surrounded by tree lined pathways. You can enjoy a stroll along the beach while the sand massages your bare feet. Playa Rincón is actually comprised of seven beaches and is three kilometers in length, providing for plenty of room for educational and recreational explorations.

Authentic Dominican
cuisine and tranquil
exploration

PAGE 02

If you feel like practicing your Spanish or submersing yourself in the local culture, Playa Rincón is the perfect place, as this beach is frequented by local Dominicans, as well as, tourists.

Within Playa Rincón you can find delicious authentic Dominican cuisine. I suggest you try the fried Pargo (Red Snapper), it is quite delectable; if that isn't tantalizing to you, there are many other tasty options, to satisfy even the pickiest of eaters.

After satisfying your taste buds you can relax in a boat ride on a calm river, just feet away from the restaurants. While on this tranquil exploration you will be able to see the various species which call this body of water home. There is also an area on the boat ride which allows for magical pictures to be taken, while sitting in a tree above the river; it is truly a unique experience.

Playa Rincón is one of the many amazing experiences you will enjoy during your time with us at Glamping D' Estrellas.
